Welcome to the Storage Design Limited 'Group Products Catalogue'

With 38 years experience in supply and installation of storage systems, we pride ourselves in offering the highest level of service.

From the smallest product like a 'Rhino' container through to a complete 'Pallet Racking System' we will be able to maximise your storage facilities and workplace.

Special discounts are available for Projects. Please ask for a quote!

We hope you find this catalogue useful and look forward to hearing from you.

Yours sincerely

Tim Bird.

If your storage requires a more bespoke solution, we can help. We can advise you on a wide range of systems which will help increase your storage efficiency

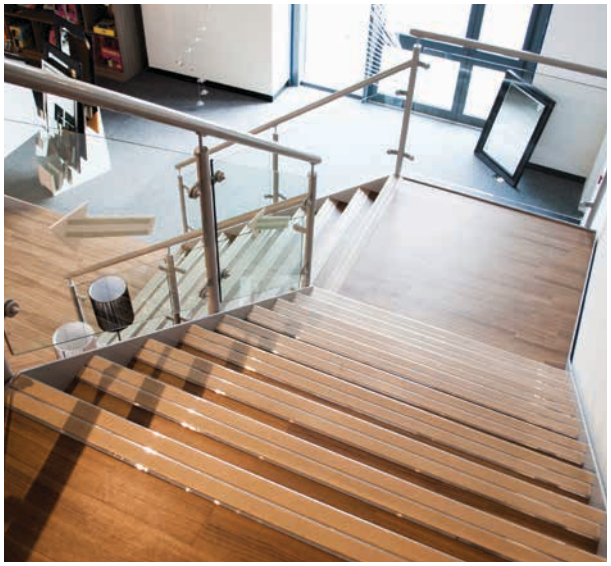
After discussing your requirements with you, we will design, project manage & install your system, helping you implement the new facility with the minimum of disruption.

From mezzanines to conveyors, from drive-in racking to multi-tier structures, we are here to help.

If you have a project brief to take forward or would like to arrange a site survey, just pick up the phone & talk to us.

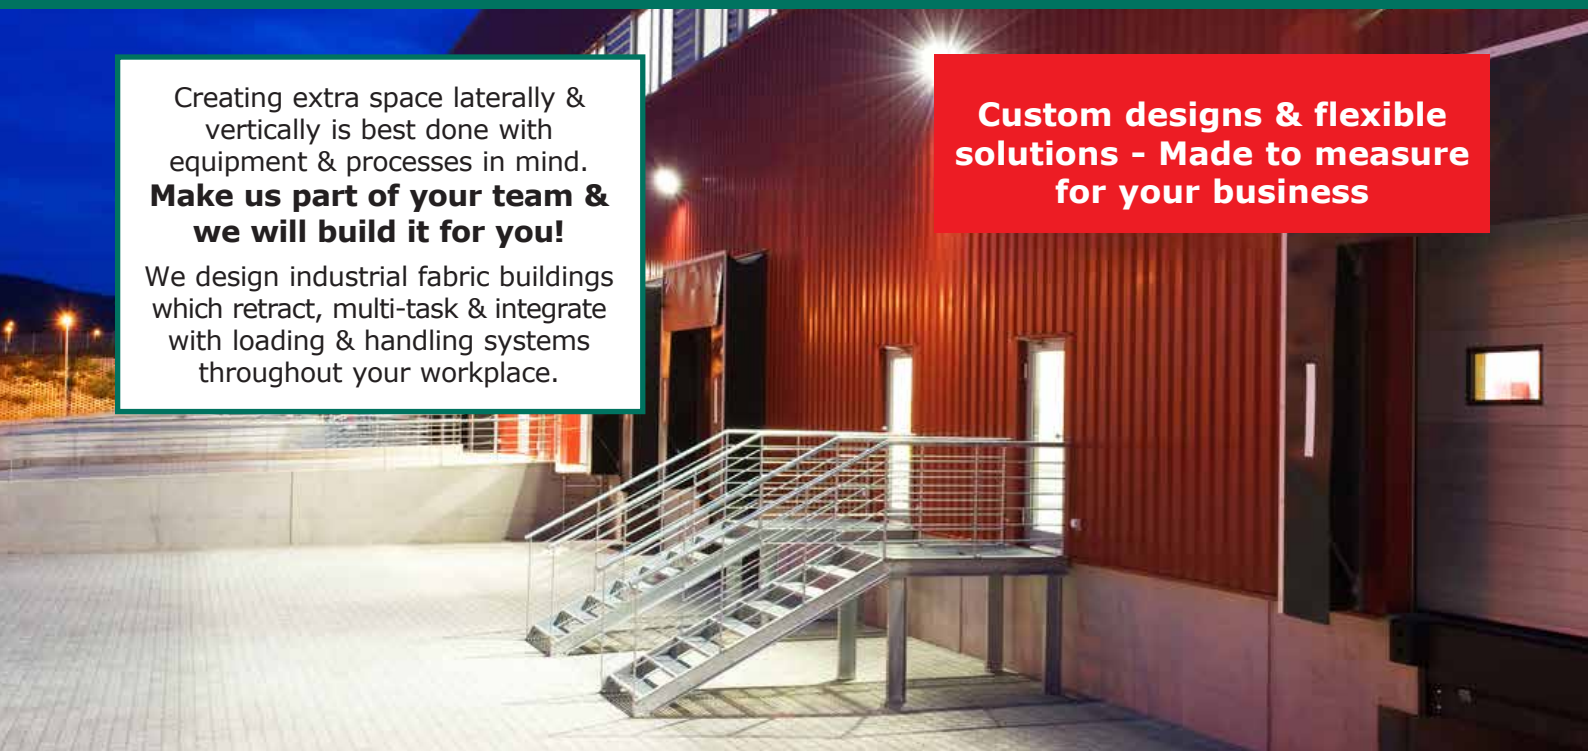
Mezzanine Floors

A mezzanine floor is a quick & easy way of utilising the available height of a building, by doubling or even tripling the available floor space. Installed quickly & cost effectively, a mezzanine floor can prove to be a rational alternative to relocating your business or expanding your premises. Mezzanine Floors are typically designed as free-standing platforms & comprise cold rolled galvanised secondary floor beams bolted into the main universal beams, in turn supported by rolled hollow section steel columns. This structure is topped with a tough 38mm thick tongue & grooved particle board, although we can provide alternatives when required.



Please call us for further details & advice

Industrial Buildings & Loading Bays



Creating extra space laterally & vertically is best done with equipment & processes in mind.
Make us part of your team & we will build it for you!
We design industrial fabric buildings which retract, multi-task & integrate with loading & handling systems throughout your workplace.

Custom designs & flexible solutions - Made to measure for your business

Purpose built steel framed buildings

Technical internal designs to accommodate processes & machinery

Palletised storage created in goods yards to free up internal manufacturing space

Dry containing decanting facilities

Retractable production space in an open quarry - allows lifting equipment access

Cover for all weather protection of soft fruits

Raised loading docks

Installation service available (subject to a site survey) - *CALL FOR DETAILS*

Turnkey solutions on all our structures

J.I.T. engine storage for assembly line, heavy duty construction equipment

Raised storage dock with enclosed retractable shelter

50M L retractable drying tunnel for wind tower steel columns prior to shot blasting

Home delivery hygienic marshalling space for van collection of online orders

1500 sqm of engineering workshop space with a 2 x 20T, 1 x 10T & 2 x 5T OET cranes, a mezzanine & loading bay

Gantry mounted retractable workshop

Enclosed testing facilities for container sized compressors - 4 sided for airflow

In floor electrical power conduit for engineering workshop to clear overhead space

Installation service available (subject to a site survey) - *CALL FOR DETAILS*

Titan - Double Skin Partitions

Troax Titan Clean Room Partition is a high-quality double-skin steel system designed specifically for cleanroom and office applications where appearance and performance are crucial.

Built to meet ISO 14644-1 class 5 cleanroom standards when combined with the correct HVAC system, it offers seamless double glazing and can be supplied with integrated blinds.

Titan is available in standard and non-standard RAL powder-coated finishes, and can also be supplied with an anti-static, electro-dissipative or antimicrobial powder finish.

Please call us for further details & advice

Price on application

Elan - Double Skin Partitions

The Elan system is perfect for a wide range of industrial environments and warehouse facilities, offering an excellent solution for offices, production areas, and machine enclosures.

- *Standard RAL colours: 9010, 9016, 7037, BS00A05, 5010 & 9005*
- *Non-standard colours on request*
- *Acoustic & thermal properties*
- *Fire rated options available*
- *Integrated blinds available*

Bastion - Single Skin Partitions

Bastion is a heavy-duty, angle-framed industrial partitioning system designed for manufacturing and industrial settings.

Its robust construction provides a versatile solution for a wide range of working environments, with options that include, but are not limited to: full steel, mesh, and glazed panels.

Durable and reliable, Bastion is the ideal choice for high-security areas.

Sigma - Single Skin Partitions

Sigma offers a demountable and relocatable medium-duty partitioning solution, perfect for facilities that require a balance of durability and high-quality appearance.

Its lightweight yet sturdy design allows for easy assembly and disassembly, making it ideal for environments where adaptability is key, such as offices, production areas, and storage facilities.

Ideal for applications where a clean, professional look is as important as functional separation.

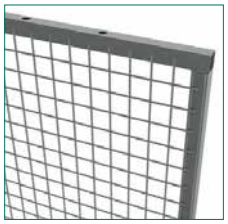
Panels can be multi-tiered to create desired height.

Warehouse Partitioning

To complete your warehouse partitioning solution, Troax offers a wide range of panel options and locking systems to suit different operational needs. Whether you're looking to enhance security, improve workflow, or create specialised zones within your facility, our modular partitions can be customised and configured in a variety of ways. Choose from durable locking mechanisms to secure restricted areas, ensuring the highest levels of safety and access control.

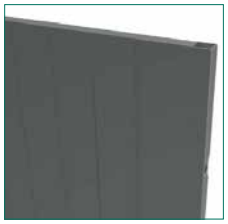
Panel Types

(UR350 & UX450)
50×50 mm mesh panels are an ideal solution for providing a safe working environment that allows natural light and ventilation.



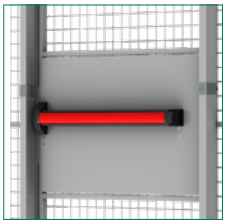
(UR325)
25×25 mm mesh panels are adapted for applications that require a high level of safety, such as storing aerosols, or hazardous or high-value goods.

(UR300)
100×50 mm mesh panels are a lighter alternative to 50×50 mm, but still a perfect solution for providing a safe working environment.



(URSP)
Full steel modular panels are ideal for creating storage areas for storing goods out of sight. They are made from profiled steel sheet and available in a number of different standard widths.

Locks for Doors



PANIC BAR
For emergency evacuation. Available as a hinged door, fitted with euro profile cylinder. The Troax Panic Bar meets the requirements of norm EN1125.

ABLOY EL460
A kit with the electrical lock ABLOY EL460 is combined with split function for emergency exit from the inside.

KNOB AND HANDLE
When it shall be possible to open the door from the inside with only the handle and necessary to use a key from the outside.

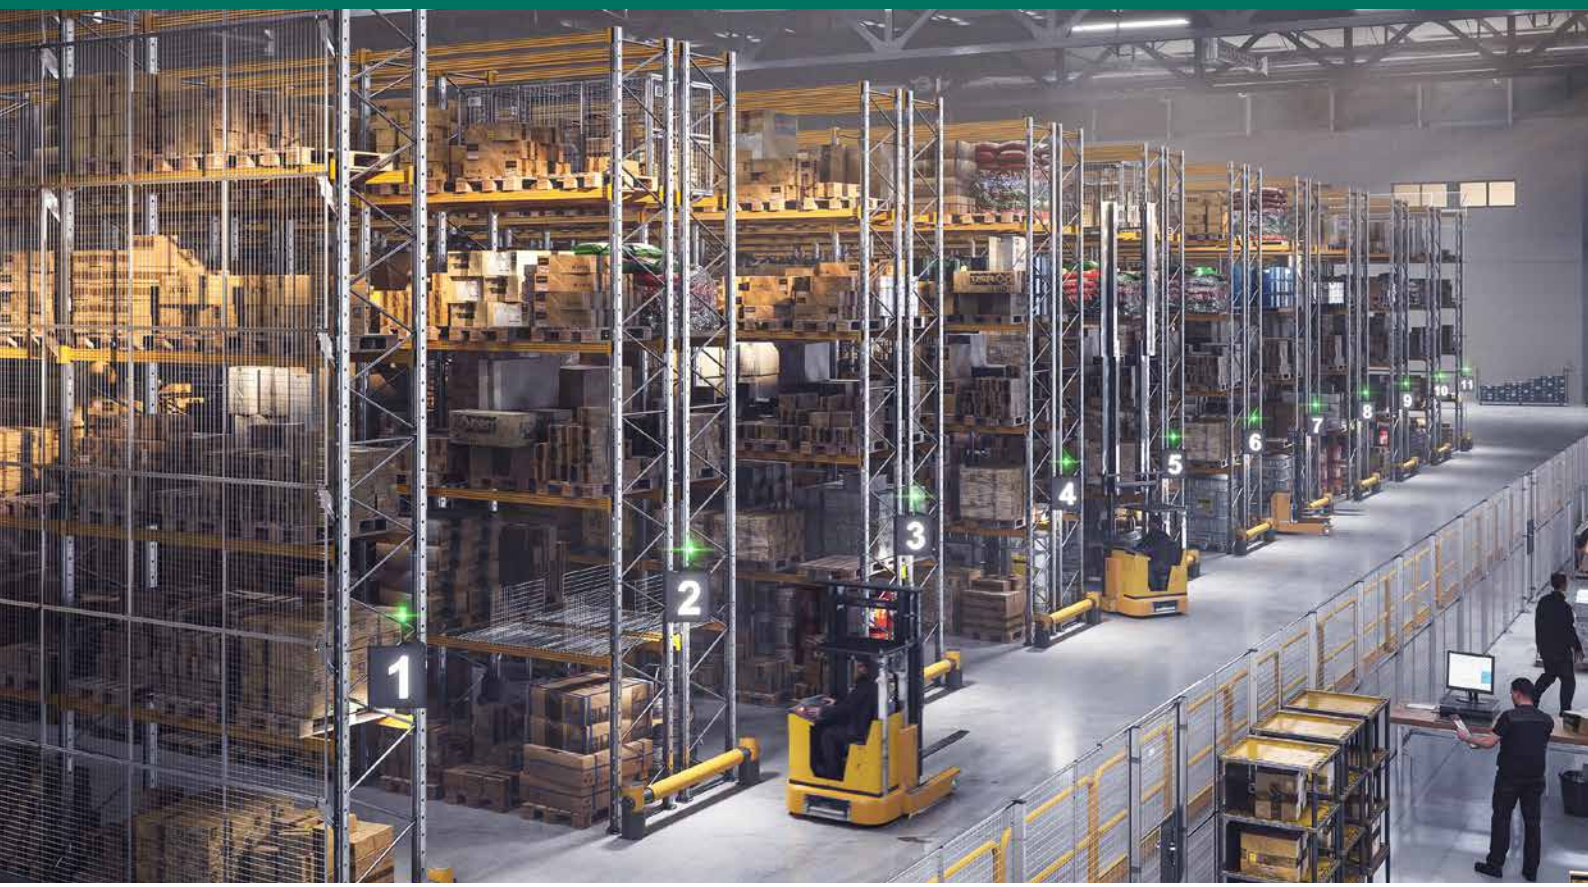
ASSA CYLINDER
A frequently used door, which can be used both locked with a key or unlocked with just the handles.

EURO CYLINDER
A frequently used door, which can be used both locked with a key or unlocked with just the handles.

ELECTRIC STRIKE
When an electric keyless control is needed. For example together with a tag/ code/ card system.

PADLOCK
For less frequent access.

Industrial Mesh Partitions



Troax Warehouse Partitioning is a flexible, modular mesh panel system, ideal for dividing factory and warehouse spaces, creating secure storage areas, and sectioning off individual zones or stores.

Each panel is built with strong, durable steel frames, ensuring long-lasting performance. We also provide a range of posts and fixings, allowing secure attachment of the panels to both floors and ceilings, offering flexible installation options.

Warehouse partition is typically available in polyester powder-coated mild steel but can be supplied galvanised upon request.

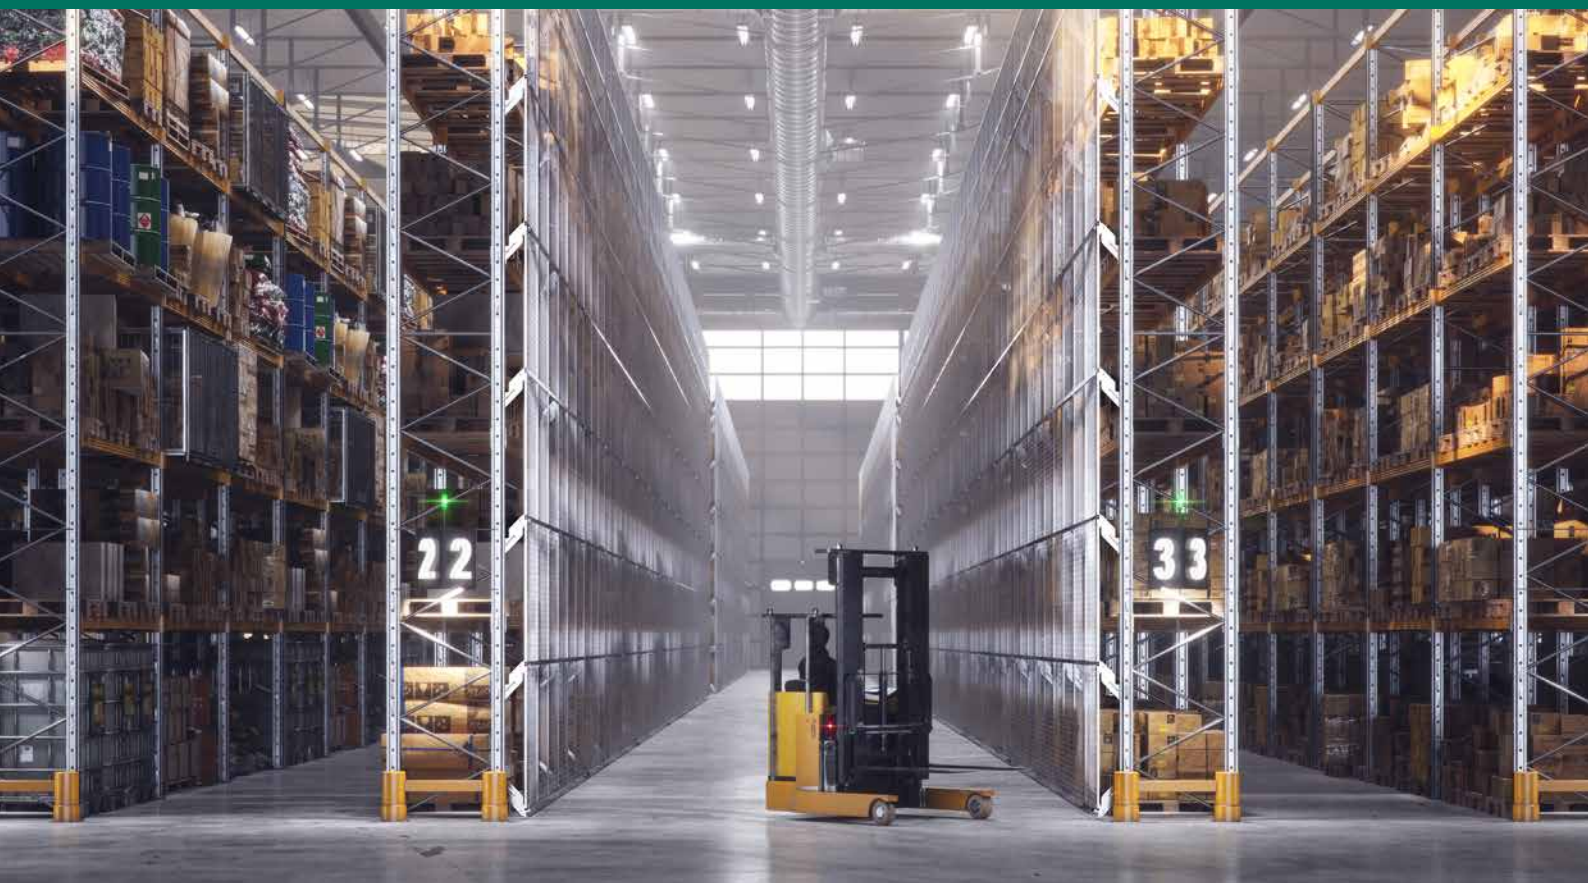
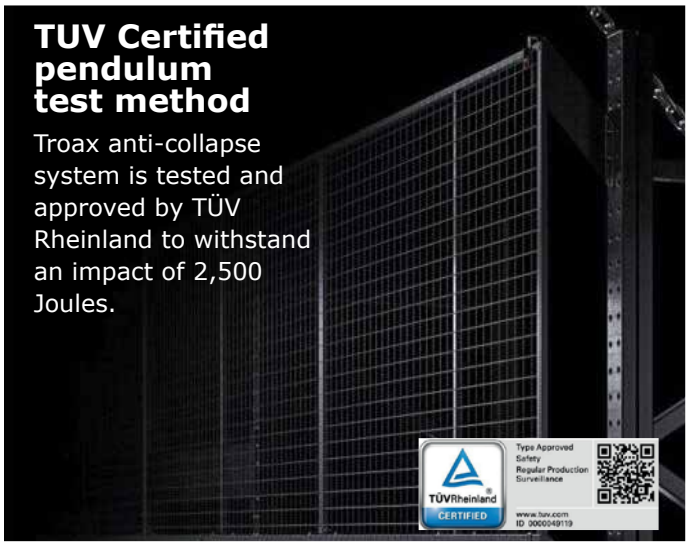
Anti-Collapse System





TUV Certified pendulum test method

Troax anti-collapse system is tested and approved by TÜV Rheinland to withstand an impact of 2,500 Joules.

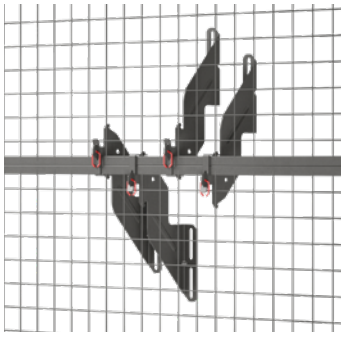
The Troax Anti-Collapse system is designed to prevent the risk of products falling from pallet racks, making warehouse storage safer and more efficient.

The system uses fully welded mesh panels with a durable steel frame, capable of absorbing impacts up to 2500 joules (roughly equivalent to a 160kg pendulum traveling at 20km/h), ensuring it can withstand significant force from accidents or mishandling. It is particularly suited for preventing spillage and creating a secure environment in logistics operations.

The Anti-collapse screen can be made from 700mm, 1,200mm and 1,500mm high panels by 1,100mm and 2,200mm wide.

Speed Bolt

The Speedbolt is specifically designed for the Anti-Collapse system, offering a fast and secure assembly solution. This innovative fastener can be mounted from the front, eliminating the need to reach behind the pallet rack uprights.



Uni-Bracket

The Uni-Bracket is a versatile mounting solution, offering four positioning options. Its unique locking method keeps panels securely in place, while the cut-out design allows easy removal of pallet racking beams near the bracket. The system supports logical assembly from the bottom up, making installation more efficient.

WAREHOUSE LABEL DESIGN, PRINT & INSTALL

No Warehouse Label Project Too Big Or Small!

Beaverswood® specialises in designing, printing, and installing bespoke rack labels tailored to suit specific warehouse requirements. Whether the labels are needed for a large distribution centre, a small cold store, or something in between – we have the solution for you thanks to our wide variety of materials, adhesives, and printing technologies.

Whether you require split beam or single location labels, alpha or numeric digits, barcodes, or arrows, we'll work closely with you to create labels that enhance efficiency and accuracy in warehouse operations.

We can carry out labelling and installations in either new or occupied warehouses, working around the current operations. With our in-house machinery, we have complete control over the quality and precision of every label we produce. Our service includes advice and consultation in the planning stage, hire of equipment, and installation fulfilled by trained and qualified personnel.

BESPOKE MODULEAN® SHADOW BOARDS

Tailored to your specifications, we can manufacture bespoke versions of our shadow boards to provide a visual management system that ensures every item has its place.

CUSTOM FLOOR MARKERS, SIGNS & LINE MARKING

Crafted with durable materials to withstand high-traffic areas, these floor and line markers have multiple purposes, from highlighting warnings to providing clear & visible walkways – plus much more.

IMPACT PROTECTION DESIGN & INSTALLATION

The level of experience that we have when it comes to designing and installing these systems means that we are able to offer bespoke solutions to meet your unique requirements.

BESPOKE TICKET & LABEL HOLDER SIZES

We're committed to going beyond the 'one-size-fits-all' approach, offering bespoke lengths of ticket and label holders to fit any racking system, ensuring a perfect fit every time.

PLEASE GET IN TOUCH WITH US FOR ALL YOUR PROJECT NEEDS.

466 - 491

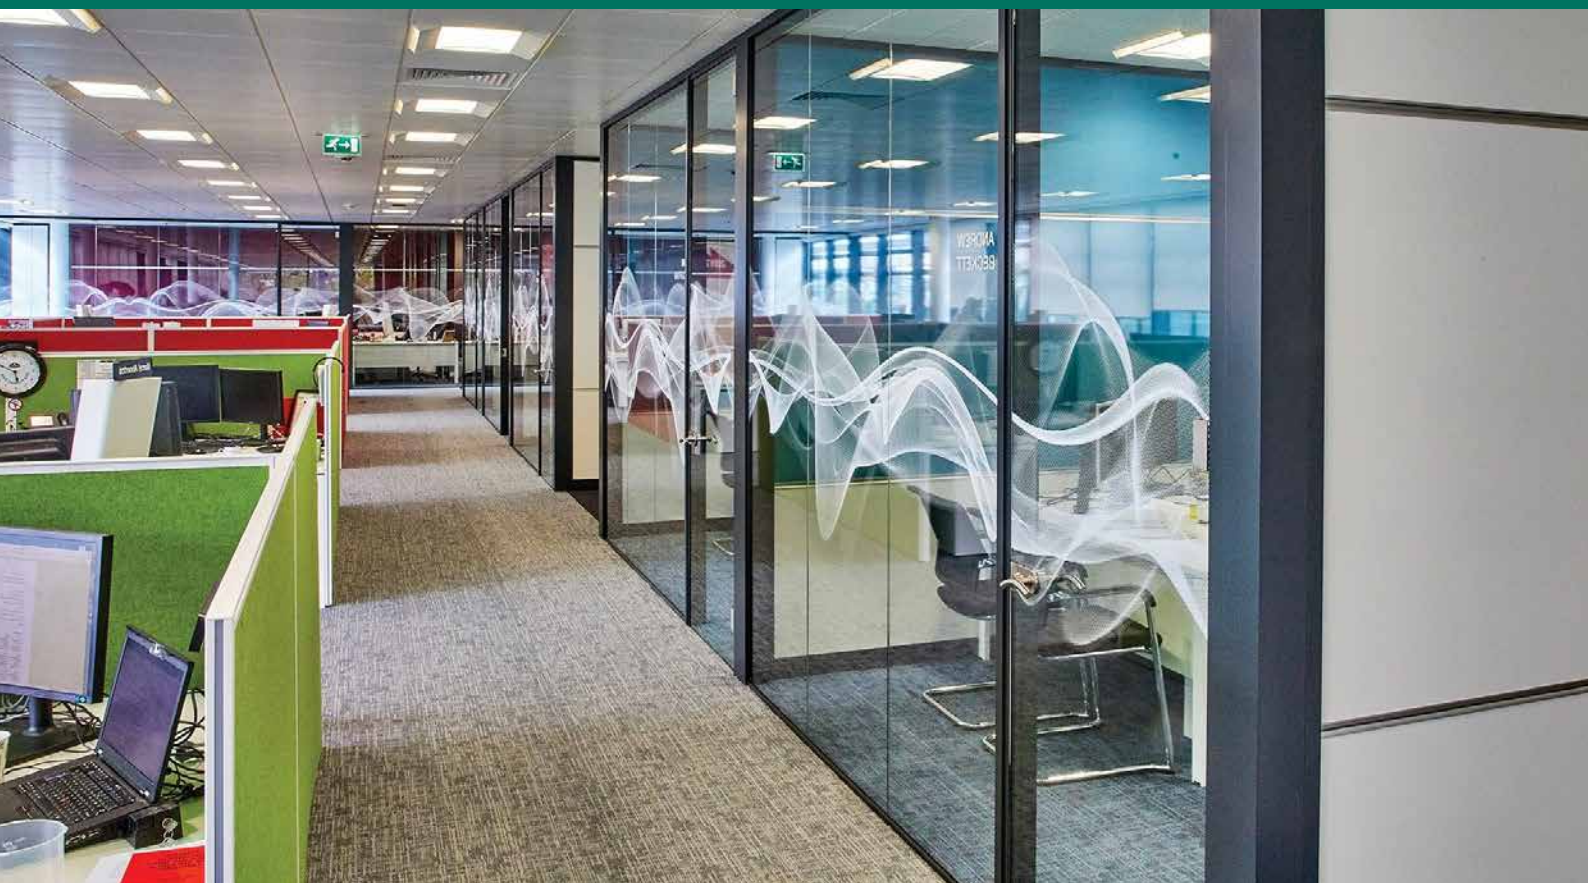
Office Partitioning



A Partition Wall creates a dynamic, functional working environment. Demountable Partition Walls allow you to reconfigure the space as your business requirements evolve. Glass Partition Walls in an office environment create light, open spaces whilst maintaining privacy, security & control over sound, temperature & lighting needs of individual areas.

Please call us for further details & advice

Make the most of your space...

You may require a more open plan office or the opposite. Utilising the flexibility that Office Partitioning gives, you are able to create the space & / or individual working areas that you need. Having the option to increase privacy, sound reduction or add fire protection routes.

Whether it is a simple alteration or a complete office refurbishment it needn't be a daunting task. With our expertise, experience & skills in space planning we will endeavour to meet your requirements no matter how big or small the project may be.

- Quick & easy installations - tailored to your individual requirements
- Utilise space & create privacy where needed
- Re-locatable – can be moved or extended to suit your future needs
- Wide range of designs, finishes & accessories available
- Fully glazed or partial glazed modules 7 doors
- Fire resistance of up to 60mins
- Sound reduction up to 50dB Rw
- Integral colour co-ordinated blinds & other furnishings are available

Longspan Heavy Duty Racking

Chipboard Decking

- Heavy Duty Racking system - store all your heavy & bulk items with ease
- Adaptable storage solutions simple to add to, as your storage needs grow
- Strong "Z" profile beam design - unique beam design that offers capacities up to 950kgs
- Heavy duty shelf levels - shelf levels includes deck supports to match beam capacities

Twin Slot Upright & Beam

Horizontal Deck Supports

Longspan Heavy Duty Racking Starter Bays - Chipboard Decking - 1984Hmm Frames

Includes 2 x frames & 3 Beam Levels complete with Decking

Mesh Shelves

Troax mesh shelves are designed for security, durability & easy relocation. They require no additional fixings, as their own weight keeps the panels securely in place.

- Made from robust wire mesh with deburred ends for safety
- Dividers optimise storage space
- Promotes effective airflow & visibility
- Open design allows for sprinkler penetration, ensuring compliance with fire safety regulations & insurance companies
- Bespoke options available
- ANSI & non-ANSI versions available

- Manufactured from high grade steel to ensure maximum weight loading capacity. Uprights are produced from 2mm thick steel & the brackets from 1.6mm thick steel
- High quality Dupont™ anti-bacterial coating as standard. Safe, impact scratch resistant, durable & easily maintained
- The 'Shelf Lok' safety system ensures that shelves cannot be accidentally dislodged
- Also suitable for wood, composite & glass shelves

Brackets

- A single shelf support system with high load capability. Suitable for use in hospitals, kitchens, factories, workshops, laboratories, schools & colleges etc.

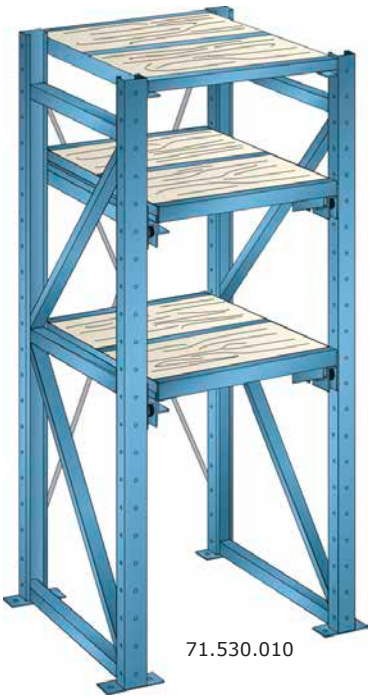
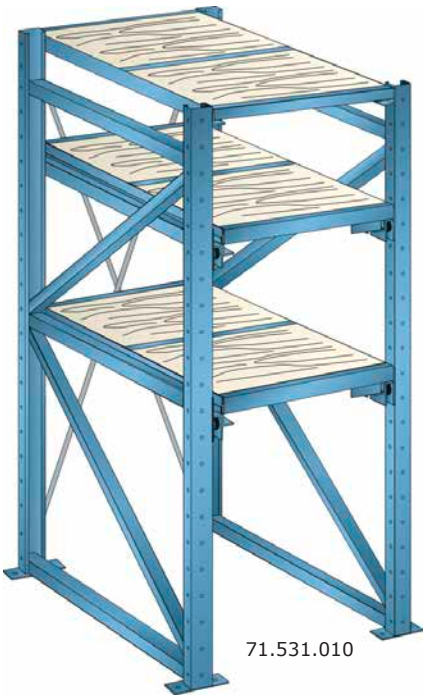
H.D. Pull Out Shelving



71.530.010



71.531.010

71.533.010

INFORMATION

Pull out shelves are adjustable in 100mm increments

71.535.010

71.537.010

- Optimum space utilisation for perfectly organised storage of very heavy stored goods
- Maximum stability through robust, solid design with a high load-bearing capacity of 9000kg per shelving unit
- Up to 200 kg load capacity per top fixed frame shelf, up to 1000 kg per fixed & pull-out frame
- Extremely quiet thanks to smooth-running pull-outs with stops in closed & fully extendable positions
- Easily adaptable by converting fixed and pull-out frames in 100 mm increments as required
- Can be loaded using lifting gear, allowing them to be installed in a compact arrangement
- Ideal for the safe and convenient storage of heavy items such as injection moulds, punching tools, electric motors & pallet goods

Vision Door Cupboards

These cupboards and cabinets bring a combination of storage, mobility, security and a touch of style to the workplace. The perspex doors allow managers and supervisors to be able to see the contents of cupboards whilst the cupboard is locked.

- Flush "no snag" handles
- Mobile and static options
- Strengthened doors
- Adjustable shelves
- Secure locks
- Tough powder coated finish
- Cupboard shelves have a UDL of 50kg

Supra Bins

- Large heavy duty bin with a strong heavy duty reinforced base, sides and stacking rim
- Resistant to most industrial solvents
- Designed so that they can stack one on top of each other
- Open front design allows clear access to contents and all bins have space on the front for labelling
- Bins sit flush on top of each other and a stopper prevents the stacked bins from shifting forward

Shelf Bins

The shelf bin family offers 11 sizes to suit a variety of storage needs. Available in 100% recycled plastic or classic plastic, these bins are designed fordurability and flexibility. They stack securely on top of each other — even bins of different lengths when the width is the same. Straightsides maximise capacity, while optionalside-to-side dividers keep contents organised. Each bin comes standard with a label and protective cover. Designed to fit all metric shelves, cabinets, and industrial workstations, our shelf bins ensure efficient and versatile storage

Workstation Solutions **ESD Proof by Design™**

EPA

Compliant & Certified

Safe, reliable & proven

Versatile products & services

Manufacturing or handling electronic components and products requires protection from ESD, electrostatic discharges. Even the smallest ESD can cause major damage to sensitive components, weaken the end-product's durability, or change its functionality. Costly ESD damages can be avoided by building an ESD protected area (EPA) where ESD workstations play a crucial role.

ESD Proof by Design™

ESD protection is built into the very foundation of our ESD workstation solutions. All our high-quality and ergonomic workstation furniture is available as ESD-protected versions. We have been the benchmark in ESD furniture because we create workspaces where safety, comfort, and performance go hand in hand. Our ESD workstation solutions are **ESD Proof by Design TM.**

Bin Cabinets

- Can be wall hung, stood on a worktop or used with space-saving turntables
- Comprises steel frame, shelf bins, labels & backstops

Small Parts Storage & Containers

Distribution Pallets

- Lightweight pallets are ideal for multi-trip logistic operations, making significant fuel savings over heavier pallets
- Unlike timber pallets there are no splinters or metal fixings that could damage contents or injure personnel
- Eco Pallets - when not in use, pallets nest by 62% of overall height for even greater savings on return transport. Do not harbour wood-born pests and, so, do not have to be treated for export. Also have a constant tare & do not absorb water or contaminants
- Heavy Duty Pallets are ideal for heavier loads

Storage Vaults

- Designed to comply with the Flammable Liquid Storage Regulations (1972) as appropriate & the Factory Inspection Guide HSG51
- Adjustable vent meets the requirements of both flammable storage (vents closed) & agrochemicals (vents open)
- All welded units conforming to the A.P.E.A. construction requirements
- Provide a half hour protection from collapse & the passage of flame
- Multi-lockable for high security & fitted with a lift up action lid assisted by gas struts
- For extra protection & fork lifting the units have skids on the base
- Middle shelves pivot on models SSV01Z & SSV02Z to enable larger items to be stored on the base level
- Model SSV03Z has a central partition & four shelves - the two middle shelves fold away & the two top shelves are made in 3 sections - the back section is fixed in position & the front two sections removable
- All models have a liquid-tight base to contain spillage

N.B. A Fork Lift will be needed to unload these vaults

Troax Cage

The Troax Cage is an effective theft deterrent, ideal for use in warehouses or construction sites. Its robust, modular design allows for customisable configurations, accommodating depths starting from 1200mm up to the desired size. Additionally, the depth can be easily extended as needed by incorporating additional modular panels and brackets. The unique hinge design enables both doors to open a full 270 degrees.

Single & Double Lockers

Single and Double Lockers customise storage spaces depending on the specific need required. The single doors can be created out of eight standard wall panel widths. Both the single and double lockers can be built out of UR350 panels (19x19mm framework) or UX450 panels (20x30mm framework). Securing plates for padlocks are standard.

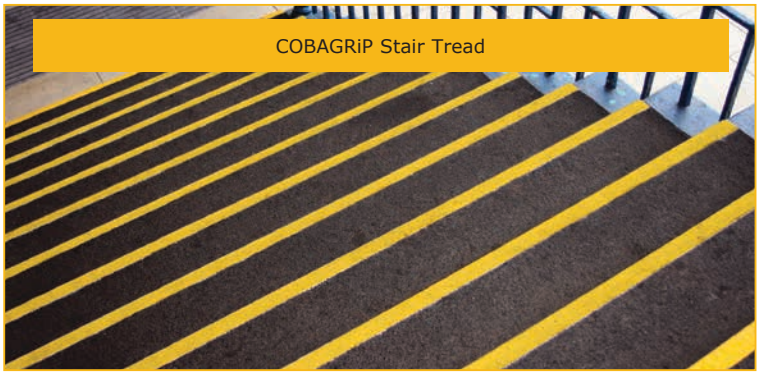
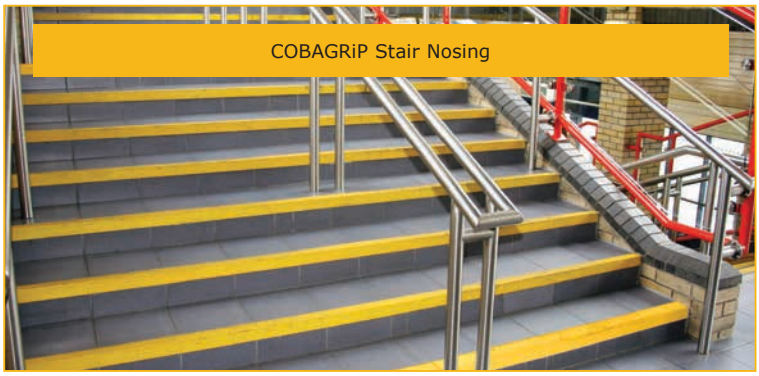
COBAGRiP



COBAGRiP Stair Tread



COBAGRiP Stair Nosing

Safety Flooring

- UV stabilised GRP sheets, treads & stair nosing designed to offer exceptional levels of slip-resistance both indoors & out, while having outstanding wear & tear qualities
- Ideal for pedestrian & factory walkways, access ramps, gangways & bridges
- Resistant to most solvents & chemicals
- Manufactured from a flame retardent silicone carbide 'gritted' top surface
- Easy to install, simply bond or screw to the existing floor surface

COBAGRiP

- Suitable for use with forklift traffic
- Thickness: 5mm overall

COBAGRiP Light

- Also suitable for food production areas
- Thickness: 2.4mm overall

COBAGRiP Stair Tread

- Designed to fully cover the stair area
- Thickness: 5mm overall

COBAGRiP Stair Nosing

- Designed to cover the edge of the stair
- Thickness: 5mm overall

COBArib

- Widely used for many different industrial applications, as floor matting or workbench/tool protection
- Ribbed rubber surface provides additional grip, reducing the risk of slipping for operatives
- Provides a protective covering for workbenches, cushioning the impact of tools and apparatus
- Also useful for protecting stock at packing stations & components in assembly areas
- Can help support noise insulation

Rampmat

- An economical anti-fatigue mat for the workplace
- Raised circular surface for superior slip resistance
- Conforms to Slip Resistance Test DIN 51130:2014 - R10
- Open drainage holes for spilt liquids
- Made from hardwearing NBR rubber
- Moulded bevelled edges reduce trip hazards
- Thickness: 10mm

INFORMATION

Help prevent slipping accidents in the workplace

3 day delivery

Workplace Senso

- Anti-fatigue capabilities for maximum comfort
- Elliptical backing provides fatigue relief & prevents slipping
- Manufactured from nitrile rubber for durability in industrial environments
- Resistant to oils & chemicals
- Perfect for employees standing while working at machine tools
- The top surface offers excellent slip resistance
- The yellow edge serves as a visual warning to avoid tripping hazards

Overall Size L x W mm	Model	Price
900 x 1800	WPS010702	**£332.74**

DeckStep Mat

- Raise workers off the ground like traditional duckboard
- Reduce the risk of slips by removing feet from direct contact with spilt liquids
- Textured surface provides slip resistance
- More comfortable standing surface than concrete
- Flexible and lightweight – easy to move & clean
- Strips are welded together for strength
- Slip tested to DIN 51130

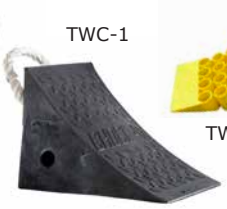
Wheel Chocks

- Wheel chocks are a low cost effective way of minimising the unexpected movement of vehicles whilst parked or being (un)loaded
- Moulded rubber units have built-in lifting handles
- An anti-theft retaining chain is available



Description	Overall Size L x W x H mm	Model	Price each
Rubber Chock	270 x 190 x 190	TWC-1	**£47.21**
Retaining Chain	5M Long	TWC-2	**£59.66**
Aluminium Chock	400 x 180 x 180	TWC-3	**£123.28**
Plastic Chock	440 x 200 x 230	TWC-12	**£47.99**
Rubber Chock	150 x 175 x 150	TWC-8	**£33.24**
Steel Chock	268 x 200 x 230	TWC-10	**£56.91**

Wheel Chocks with Handle

- The handle allows operatives to position chocks from a standing position (reducing manual handling effort), whilst also providing a clear visual marker to operatives & drivers & drivers that the chock is in place

INFORMATION

Provide a clear visual marker to operatives & drivers

Protect-It XL Rack Guard & Stackable

Protect-It XL Rack Guard

Protect-it XL rack guards are large format upright protectors that improve warehouse safety & reduce rack damage caused by forklift trucks, & other vehicles.

- Overall Height: 500mm
- Fits uprights with widths to 90mm
- Easy to fit - no fixing or tools required
- Easy to remove for rack inspections
- Passes both front/side impact tests to conform to FEM 10.2.02
- Fits most pallet racking makes

Protect-It Stackable

PRICES HELD

- Kit includes: 3 x 133mm guards
- Overall Height: 400mm
- Fits uprights with widths from 90mm to 120mm
- Effective in cold stores up to -40 degrees
- No fixings or tools required
- Passes both front/side impact tests to conform to FEM 10.2.02
- Fits most pallet racking makes

Protect-It XL Rack Guard

Free delivery on orders over £250.00. For orders less than this please add £25.00 per order.

Surface Mounted Flow Plates

- DON'T BE FOOLED BY FAKE, this original patented design is and has been UK Manufactured for over 25 Years. The Surface Mounted Flow Plate has been designed to offer advantages over the sunken design. This product is strong enough to withstand the heaviest goods vehicle, or with the flap reduced to 115mm, will provide the strength and flexibility to allow all types of vehicles (standard design maximum weight 1 tonne per axle) to travel over them. Another advantage these plates offer is eliminating the problem of piercing roadway surfaces, no more digging holes as these simply bolt down to the surface providing an easy yet effective traffic control solution.

Description	Model	Price	Price (each) 2+ off	Price (each) 6+ off

Stop&Go Castors

Chrome Plated Foot Ring

Product	Description	Model	Price	ESD Model	Price
High Glide Set	Abrasion-resistant plastic glides have large surface area & offer a superb level of stability. The glides can be retrofitted to all our chairs	CGLIH	**£73.07**	CGLIH-ESD	**£129.91**
Soft castor set for hard floors	The castors will brake when unloaded. As standard, we supply soft castors for hard floors, but hard castors for soft floors needs to be ordered separately	CSCAS	**£83.74**	CSCAS-ESD	**£145.55**
Hard castor set for soft floors		CHCAS	**£85.40**	CHCAS-ESD	**£148.38**
Soft Stop&Go castor set for hard floors	In case the high chair needs to be moved around the workplace, Stop&Go castors will provide the safe solution. These castors will brake as soon as they are loaded, but when not loaded the chair is easy to move around	CSTOP	**£170.66**	CSTOP-ESD	**£233.80**
4D Armrests	Adjustment of height, width & depth with the possibility to swivel	ARE	**£186.20**	ARE-ESD	**£280.12**
Chrome Plated Foot Ring	Foot ring can also be fitted to our lower chair models by attaching it to the chair column. The height can easily be adjusted without the use of any tools	CRING	**£127.35**	CRING	**£127.35**

specify when ordering

- Fully bunded premium steel storage units, fully compliant with UK regulations making them ideal for the safe storage of oils, paints, inks and chemicals
- Available as either "walk-in" or "cupboard" style stores and are manufactured in the UK
- Backed with a 20-year structural guarantee, the ECS0650 and ECS1098 walk-in stores come complete with shelving and have the added security of cam-lock door closing locks (padlock not supplied).
- Fully seam welded sump fitted with a removable galvanised grid mesh deck
- Adequate space for moving around inside safely with easy access to the shelving and containers

This unit will be delivered by an articulated vehicle, therefore please ensure that a vehicle of this size can access your premises before ordering and advise us accordingly. You will require an appropriate size-capacity fork lift truck or Hiab unit to offload this item from the delivery vehicle. **IMPORTANT:** our standard delivery doesn't include any offloading due to insurance restrictions - if you require this service then please call for details. The unit must be positioned on a solid level surface, ideally concrete of circa 150mm in depth and 100mm bigger overall than the unit. The purpose of this is to ensure the unit does not settle unevenly when placed in position.

Drum, Cylinder & Spill Control

Leak Diverters

- Redirect roof or pipe leaks to prevent water damage
- Deal with your nuisance ceiling leaks without disruption to the workplace until a permanent repair can be made. This device can be hung from the roof directly under leaks to catch rainwater & divert it to a convenient collection point, keeping it off the floor, reducing the potential for slips & falls whilst minimising damage to goods & machinery.
- Adjustable hanging straps (not included) ensure easy levelling & positioning - call for details. Standard UK Hozelock fittings ensure water can be safely channelled into a suitable receptacle or other convenient area
- Can be connected to a garden hose - not included

Heavy Duty Pressed Steel Castors

- Manufactured from heavy gauge zinc plated pressed steel
- Robust range of castors are all fitted with double ball races & hardened steel tracks in the swivel heads
- Suitable for power towing up to 6kph
- Wheel sizes from 125mm to 200mm
- Load capacities from 300kg to 800kg

Telescopic Container/Trailer Conveyor – (for use over a level loading dock)

The Telescopic Expressway has been developed as a cost effective solution for efficient loading & unloading of shipping containers & trailers over a level loading dock. High impact, low inertia, 50mm diameter PVC rollers mounted in fully welded, powder coated steel channel frames. 50mm bright zinc plated mild steel rollers at load point & 20mm diameter bright zinc plated mild steel rollers at deck transfer sections. Each deck height adjustable by screw jacks. Alternative widths & lengths available on request.

Description	Model	Price
600mm Wide x 12M Extended (5M Closed)	TE4-600-3-12.0	**£4975.00**
600mm Wide x 16M Extended (5.5M Closed)	TE4-600-4-16.0	**£6510.00**

Container/Trailer Conveyor – (where no loading dock available)

The High Rise Telescopic conveyor has been developed as a safe, efficient & cost effective solution for quickly unloading shipping containers or trailers where no level loading dock is available. 600mm wide the conveyor will extend up to 10m inside the shipping container or trailer & will convey cartons under gravity to an offload point at ground level. The conveyor can be further extended by connecting an Expandaveyor, please see opposite page for specification. Suitable for container floor heights of 1,300-1,650mm (height options from 250-1,700mm available on request)

Description	Model	Price
High Rise Telescopic Conveyor	HRTE	**£9087.00**
6M Expandaveyor Extension	6MEE	**£2104.00**
7.5M Expandaveyor Extension	7MEE	**£2613.00**
9M Expandaveyor Extension	9MEE	**£3073.00**

Medium Duty Belt Conveyors

Motorised drum drive belt conveyor ideal for warehousing & light industrial use. Smooth faced anti-static PVC belt, supplied with variable speed controller with forward & reverse function. Rated at 30kg per running metre uniformly distributed load. Runs from a 230V (single phase) supply.

A complete range of belt conveyors, including inclined, mezzanine floor & vehicle loading conveyors available on request.

Due to the size of these units additional carriage costs may be incurred - call for details

Expanding Conveyors

- Versatile mobile conveyor system which improves productivity & reduces manual handling - ideal for warehouse & industrial applications
- Extends to suit changing applications & closes for efficient storage
- Can be stretched around corners
- High impact PVC Skatewheel & roller models available
- Height adjustable from 650 to 1100mm
- Supplied as standard with handles & 100mm swivel braked castors
- Rated at 80kg per metre
- Axle pitch when fully extended 125mm
- All steelwork protected with a bright zinc plated finish
- Options include end stops & hooks to connect multiple conveyors

Available on request

- Bright zinc plated steel roller & skatewheel models
- Height ranges of 450-700mm or 900-1200mm
- Heavy duty models
- Different lengths & widths
- Roller end stops

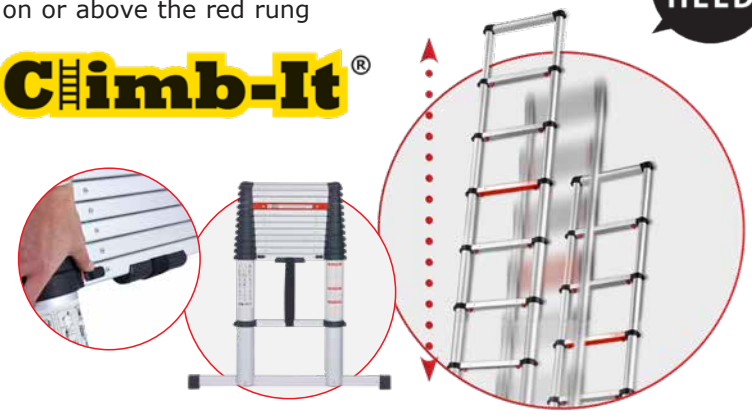
Climb-It® Telescopic Ladder with Stabiliser

- **Certified to EN 131 standard**
- To open the unit lift from any step dependent on the height you are trying to achieve. The step can be adjusted all in one go or step by step to suit your requirements
- Folds quickly & easily for compact storage
- Controlled retraction to guard against trapped fingers
- One time release locking mechanism
- Manufactured in strong aluminium
- For safe use, do not stand on or above the red rung

PRICE HELD

Climb-It®



Folds quickly & easily for compact storage. Simply push the buttons to close. The unit has a flange in the legs which restricts air flow and therefore gives controlled retraction to compact the unit smoothly from 3810mm extended height to 910mm closed height

INFORMATION

Lift out handrails on 3 sides of the platform allow easy access to your work area

- Manufactured from durable painted strong tubular steel with a handlock mechanism which engages or disengages the front castors so the steps become mobile or static
- Punched steel treads (195D x 730Wmm) & platforms (1200 or 1800mm) ensure secure grip
- Easy slope 50⁰ angle enabling you to turn around & descend facing forwards
- Box section base gives extra strength & stability
- Lift out handrails on 3 sides of the platform allow easy access to your work area
- Load capacity of 300kg - can hold 2 people on the platform at one time

Chair Mats

These chair mats are produced with 50% of our manufacturing site's energy coming from on-site and external sources

Chair Mats provide cost effective floor protection while enhancing employee wellbeing

- Protects hard floors or carpets from permanent damage caused by wear from castor-based chair movement.

Reduces expensive floor repairs or replacement costs

- Provide an ergonomic easy glide surface for castor-based chair users to reduce stress to the lower back and legs.

Increases employee comfort & productivity through ease of movement

Smooth back for hard floors

Gripper back for carpets

Smooth back for hard floors

Gripper back for carpets

Floortex® Valuemat®

Durable PVC chair mats, offering exceptional value & performance backed up with a 2 year warranty

- Durable construction with attractive & ergonomically functional textured top surface
- Smooth back for hard floor applications or gripper back for low pile carpet applications.
- 100% free from DIDP Phthalate content for improved air quality over conventional PVC
- Cadmium, tin & lead free for peace of mind
- Manufactured using 50% renewable energy
- Contains up to 25% recycled content
- 100% recyclable

Roll Stands

Sturdy, freestanding, multipurpose stands for rolls of packing material, for example. Low and tall models are available in three different widths. Adding wheels makes the stand easy to move to wherever it is needed. In addition, by adding a cutter, the stand becomes a workstation at which the material is accessible in a user-friendly manner

- Robust, freestanding roll dispenser stands
- Changing the roll is quick and easy
- Adjustable roll height
- Low packing units comes with 1 x roll
- High packing units come with 2 x rolls
- Accessories include a set of wheels (4 swivel wheels, two with brakes)
- A compatible cutter and extra roll racks are also available

SIAT Semi-Automatic Case Sealing Machine Bottom Belt Driven

- A very reliable semi-automatic bottom belt driven case & box taping machine specifically for medium sized boxes of the same size with a minimum weight of 3kg. Ideal case sealing machine for a variety of industries like food & beverage, pharmaceutical, clothing & electronics
- Seals top & bottom flaps of cardboard boxes/cartons
- Bottom belt driven - left side operation
- Standard 240v power supply
- Tape head & width: 50mm (75mm available)
- Central emergency stop to work safely on both sides of the machine
- Lockable electric isolation switch for added protection
- Made in Italy

10 day delivery

SIAT Semi-Automatic Random Case Sealing Machine, Top & Bottom Belt Driven

- Semi-Automatic Random case taping machine, the height & the width of the box is detected as it is fed into the machine, the machine then automatically adjusts to the required size. It is top & bottom belt driven so the tape is then applied to either the top of the case, or to the top & bottom as required. Ideal for e-commerce & logistics operation
- Seals upper & lower flaps of cardboard boxes/cartons
- Top and bottom belts are driven
- Motorisation 2 x 130 Watt
- Tape head & width: 50mm (75mm available)
- Requires air supply
- Made in Italy

10 day delivery

SIATOne Wrap Semi-Auto Pallet Stretch Wrapping Machine

- Simple to operate with a user friendly control panel - once programmed it is simply a case of pressing "start" to initiate the wrap cycle. This SIAT stretch wrapper improves pallet stability, reduce stretch film consumption & eliminate the need to hand wrap pallets
- Manual & 4 automatic modes, 9 + 1 individual programs & lockable control panel
- 6 – 12 rpm (adjustable)
- 72,0 dB(A)
- Smooth start / stop
- Film width: 500 mm / ext. Φ 300 mm / core Φ 76mm (fix) / weight 20 kg / thickness up to 35 micron
- Independent setting of rotation & carriage speeds
- Top-sheet function
- No. of top & bottom windings (independently settable)
- Automatic height detection
- Top edge overlap (settable from control-panel)
- Adjustable bottom overlap
- Pausable wrapping cycle
- Made in Italy

LSM V5 Small Cardboard & Waste Baler

The LSM V5 is ideal for any warehouse to help with waste management. With a compact design & small footprint along with its minimal power requirement it makes an ideal machine for both small & mid sized applications. The LSM balers go a long way to reduce waste volume & reducing costs along with keeping the working environment clean & tidy.

- Bale size: 700H (variable) x 750W x 500Dmm
- Bale weight: 50–100 kg
- Cycle time: 28 seconds
- Integrated bale ejection
- Power: single phase 220V 50 Hz 1.5 kW
- Uses 9mm wide bale strapping

10 day delivery

Model	Price
V5-Baler	**£5800.00**

LSM V8 Mid Size Cardboard & Waste Baler

The LSM V8 cardboard & waste compactor is a mid size machine for the larger warehouse and commercial operations producing more waste, these machines are ideal in many industries such as manufacturing, warehousing & even in retail stores to control waste. As a size gauge the V8 has the footprint of a standard euro pallet but can still produce a bale of waste 800mm x 950mm x 600mm. All LSM compactors & balers help in reducing costs to dispose of waste & keeping the warehouse clear of redundant packaging materials that can become unsightly & also a trip hazard.

- Bale size: 800H (variable) x 950W x 600Dmm
- Bale weight: 100 to 180 kg
- Cycle time: 33 seconds
- Compaction force: up to 8 tonnes
- EN 16,500 Compliant
- Dimensions: 2270H x 1100W x 745Dmm
- Uses 13mm wide bale strapping

10 day delivery

Model	Price
V8-Baler	**£8000.00**

LSM V20 Cross Ram Cardboard & Waste Baler

With its cross ram configuration the LSM V20 is ideal when head height may be an issue, without the need for a vertical ram it allows the V20 to be installed in areas that may not have the required height for a vertical ram baler. Even with the absence of the vertical ram we can still achieve up to 25 tonnes of pressure with a bale weight of 300kg & a cycle time of 35 seconds

- Bale size: 800H (variable) x 1100W x 750Dmm
- Bale weight: 200 to 300 kg
- Integrated bale kicker
- 3 Phase 380/400 V 3 kW motor
- EN 16,500 Compliant
- Noise level: 74 dB
- Uses 13mm wide bale strapping

CONDITIONS OF SALE:

1. ACCEPTANCE

Acceptance of any order by the purchaser for the supply of goods will be subject to these conditions of sale.

2. PRICES

PRICES QUOTED ARE NORMALLY EX-WORKS EXCLUSIVE OF VAT & CARRIAGE

Whilst we shall endeavour to maintain the prices shown, this we cannot guarantee & we reserve the right to charge the price ruling at date of despatch. In the event of a price alteration after an order has been placed & prior to despatch notification of such alteration will be made before despatch of goods.

Low value orders may be subject to an administration charge.

Prices will be subject to any customs tariffs following Brexit

3. SPECIFICATIONS

Due to continual improvements in the design & manufacturing methods strict accuracy of specifications & illustrations cannot be guaranteed. So that any product improvements can reach the purchaser as soon as possible the Company reserves the right to change design of specification without formal notice. Stated load capacities are for evenly distributed loads only & must not be exceeded.

4. GUARANTEE*

Where the goods have been supplied by the seller & are found to be defective, the seller shall repair, or at their discretion, replace defective goods free of charge within one year (unless otherwise stated) from the date of delivery, subject to the following conditions:

4.1 The buyer notifying the seller in writing immediately upon the defect becoming apparent.

4.2 The defect being due to faulty design, materials or workmanship of the seller.

4.3 Any goods to be repaired or replaced shall be returned to the seller at the buyer's expense, if so requested by the seller.

4.4 Where the goods have been manufactured & supplied to the seller by a third-party, any guarantee granted to the seller in respect of the goods shall be passed on to the buyer.

4.5 The seller shall be entitled at their absolute discretion to refund the price of the defective goods in the event that such price has already been paid.

4.6 Guarantee excludes product finish & paint, locks, feet, wheels & castors.

4.7 The remedies contained in this clause are without prejudice to the other terms & conditions herein.

5. DELIVERY

Delivery dates are estimates only & the company shall not be liable for any loss or damages resulting from any delay in delivery. In addition we shall not be liable for any matter which results from any act of God, war or riot, extreme weather, strikes or any other events which are beyond our control. The company reserves the right to deliver goods by installments, each installment being treated as a separate contract. Goods will be delivered at the point most convenient to our carrier, usually the goods inwards department or reception on the ground floor. Further transfer or installation within the purchasers premises, particularly for large or heavy items, must be arranged prior to delivery & will be charged extra. We can also not take responsibility for deliveries that require pallet trucks or fork lifts to offload from the courier or move the goods within your premises. All goods must be examined upon receipt & any damage or discrepancy recorded with the carrier.

6. CLAIMS

All goods must be examined upon receipt & any damage or discrepancy recorded with the carrier. The company must be notified in writing of any damage or incomplete delivery within 3 days of delivery. **No claims for shortage or damage will be entertained after a clear receipt has been given to the carriers.** The company will not be liable if this procedure is not followed or if the goods have been moved by a third party to a further address. Total non delivery due to loss in transit must be notified within 7 days of invoice. Goods are not sold for any particular purpose, the end user should be responsible for the suitability of the product for use. The company shall not be liable for any indirect or consequential loss arising out of or in connection with the sale of goods. Any claim is limited to the value of the goods purchased.

7. RETURN OF GOODS

Standard goods will only be accepted for return after prior agreement with us & within 14 days of receipt. A handling charge may be imposed which will vary dependent on the condition of the goods when returned. Carriage charges for the outward journey plus the return of standard goods are payable by the purchaser. Bespoke goods manufactured specially for a customer **will not** be eligible for return.

8. RESERVATION OF TITLE

Goods supplied will remain the property of 'the company' until full payment is received. In the event of sale of these goods to a third party "the company" reserves title to the proceeds of sale. Responsibility for maintenance & insurance passes to the purchaser on delivery.

Key To Symbols

150kg evenly distributed

Denotes the maximum UDL that can be applied to a particular product

SOME ASSEMBLY REQUIRED

Denotes where a product requires **some assembly**

certified to EN 131 professional

certified to EN 14183
